

The MegaMax Stimulus™ Program

Most of us have gotten a boost or two or three from the federal government in the past several months, and these have been welcomed. But a small stimulus payment cannot go very far. If you were out of work for months due to COVID-19 lockdowns, how far would that boost really go to put you back on your feet when most of your bills have not been paid for all those months?

We are seeing signs of life again as the virus restrictions retreat a bit here and there, but a lot of the businesses which were forced to close due to lockdowns will never reopen. Too much income lost, and not enough money on hand to pay employees even if they could return.

What America needs is a MegaMax Stimulus™ program that we can all understand, get behind and believe in. **It's time for Americans to come together, pitch in, and move ahead.** Our great country was born when self-reliant people worked together, and that same attitude will help us now. All it will take is a little bit of money and a lot of commitment and determination.

And YOU can decide how much stimulus you want or need!

Here are some numbers to show how the MegaMax Stimulus™ levels can help:

Level 1: $5 \times 5 \times 5 \times 5 = 625 \times \$50 = \$31,250$ **Level 2:** $6 \times 6 \times 6 \times 6 = 1,296 \times \$50 = \$64,800$
Level 3: $7 \times 7 \times 7 \times 7 = 2,401 \times \$50 = \$120,050$ **Level 4:** $8 \times 8 \times 8 \times 8 = 4,096 \times \$50 = \$204,800$
Level 5: $9 \times 9 \times 9 \times 9 = 6,561 \times \$50 = \$328,050$ **Level 6:** $10 \times 10 \times 10 \times 10 = 10,000 \times \$50 = \$500,000$
Level 7: $10 \times 10 \times 10 \times 10 = 10,000 \times \$100 = \$1,000,000$ (1 million dollars)

These numbers suppose that (1) MegaMax members can give \$50 to each of four people, and (2) MegaMax members will agree to work till they get 5 or 6 or 7 or 8 or 9 or 10 members to join them in this stimulus program. (And always remember that *all this stimulus income is tax-free!*)

Maybe you will be satisfied with getting just five people to join you, and maybe you can't afford to give \$50 to four people to get started, so you will offer them a lower amount in the beginning. It's up to you. This is YOUR stimulus program. Our suggestion, however, is that *you work at the maximum sustainable level for YOU.* You give money ONE TIME to get going, but at some point you will need to take a little out of the income you're receiving and make up the difference to your initial four starters if you had to begin the stimulus program at a lower amount than \$50 per person. Is that fair? Of course it is. And you can always upgrade yourself to a higher level if you want to. If you have more people joining you than you thought you could get, just go to a higher level from that point forward. But do not EVER give up or downgrade yourself, since that will be a retreat rather than an advance. Progress means committing to push forward always.
